Property Address: \_\_\_\_\_

To be eligible to participate in the levelized payment plan, you must have completed at least eleven months prior service at the address for which you wish to use the levelized payment plan.

1. The applicant whose signature appears below requests that charges for natural gas service be billed in levelized billings, and agrees to pay each installment on or before the due date printed on each monthly bill.
2. The amount of each monthly installment will be calculated by adding actual usage from the previous eleven months to actual usage for the current month. The total is then divided by twelve to derive an average usage. The average usage is then multiplied by the current Btu factor to derive the therms to be billed. The levelized payment plan amount due is then calculated by applying the current rate schedule to the therms to be billed, and rounding to the nearest whole dollar. This calculation is repeated each month.
3. Failure to pay any monthly levelized payment plan installment when due will automatically cancel this agreement unless satisfactory arrangements for future payments have been made.
4. This agreement applies to the above address and applicant only. If service is terminated at any time, this agreement will immediately terminate and any amounts payable by the applicant will be paid on the final bill. Any overpayment will be refunded by check.

I have read the terms of the Levelized Payment Plan Agreement and agree to abide by these terms.
